To Whom It May Concern,

The following is to express my admiration regarding the many talents that Mr. Christiansen has. My company, Q Productions Las Vegas produced more than half a dozen large-scale production shows and in each one of these projects, Chris' know-how and leadership helped solve complex production problems.

From dealing with staffing and contracts to designing, overseeing and executing on stage builds, Chris helped our productions be a success! I was so impressed by his range of theatrical and production knowledge that I actually hired Chris to consult on our large-scale show install at Mystic Lake Casino. The results again proved successful.

It is with no hesitation that I would recommend Mr. Christiansen to anyone looking to ensure their project is on time, on budget and a success.

Sincerely,
